

Humboldt Bay Rowing Association

Policy: Team Rowing Before Sunrise and/or After Sunset

Adopted: December 28, 2016

It is Humboldt Bay Rowing Association's (HBRA) practice to ensure that all rowers row in safe conditions; therefore, HBRA team rowers will not be allowed to row in the dark *unless* the following conditions are met:

- There are sufficient safety launches able to view all rowers/boats while on the water
- Coaches are present in the launches that have experience with coaching in the dark
- Lights as required by California Boating Safety Regulations are present - and functioning - on all rowers and boats
- Weather conditions are favorable to rowing
